Tuban, Indonesia

I am a graduate in Geophysical Engineering with a bachelor's degree from Brawijaya University, specializing in Engineering and Environmental Geophysics. During college, I developed an interest in human resources development. I completed the program with satisfactory grades (3.52/4.00). I actively participated in several committees, organizations, and volunteer activities, gaining experience in leadership, effective communication, problem-solving, and teamwork. I also possess strong learning abilities, adapt quickly, and have high motivation to work.

## Educational Background

---

### Universitas Brawijaya - Malang, Indonesia

Sep 2020 - Jul 2024

*Bachelor of Geophysical Engineering, 3.52/4.00*

- Practicum assistant, member of SEG UB SC, and participated in several committees

## Volunteering and Committee Experiences

---

### Brawijaya Geophysics Festival - Malang, Indonesia

Apr 2021 - Nov 2021

*Events Division*

- Create a detailed and specific program organization.
- Coordinate with all related divisions so that there is no miss communication.
- Coordinate and organize technical matters in the field before or during the event.

Jul 2022 - Aug 2022

*Events Division*

- Create a detailed and specific program schedule.
- Ensure that the event runs in accordance with the schedule that has been made.
- Coordinate with all divisions related to the implementation of the event/activity.

### Geogreeting - Malang, Indonesia

Aug 2022 - Sep 2022

*Coordinator of the event division*

- Organizing the Event.
- Create a detailed and specific program schedule.
- Ensure that the event runs in accordance with the schedule that has been made.
- Coordinate with all divisions related to the implementation of the event/activity.

### Assistant Practicum - Universitas Brawijaya

Feb 2023 - Jul 2023

*Electromagnetic Survey Method*

- Prepare the necessary materials and ensure readiness for the practicum.
- Coordinate with the lecturer in charge of the material.
- Assist students in understanding the material provided by the lecturer.

### Geological Fieldtrip - Klaten, Indonesia

Mar 2023 - May 2023

*Staff of Events Division*

- Coordinate the event rundown that will be created
- Ensure the event runs according to the rundown.

### Geophysical Fieldtrip - Lumajang, Indonesia

Oct 2023 - Dec 2023

*Data division*

- Create a geophysics workshop module and prepare all the necessary materials for data collection in the field.

## Organizational Experience

---

### Society of Exploration Geophysicists University of Brawijaya Student Chapter (SEG UB SC) - Malang, Indonesia

Feb 2021 - Feb 2023

*Coordinator of Human Resources division*

- Responsible for internal and external relations of SEG UB SC.
- Create softskill and hardskill development training for UB SC SEG members.
